# Pavement Signs & A-Boards

---

- **Ecoflex 2**

- **Swinger 2**

- **A-Master**

- **Eco Swinger**

- **Booster**

- **Swinger 4000**

- **A-Board**

- **Ecoflextra**

---

We have a wide range of durable **Pavement Signs** and **A-Boards** to suit a multitude of indoor and outdoor promotional uses. Our market leading pavement signs can be seen across exhibition centres, car parks, airports, stations, educational establishments, leisure and hospitality venues.

Many of the products are manufactured in-house and are available in a range of sizes with various panel options, such as printed panel, poster pockets, or **High Pressure Laminate Chalkboard** panels. The **Ecoflex** family features our unique patented wedge, allowing for swift and easy assembly.

## Why is Swinger the UK's market leading sign?

- Beautifully designed and engineered.
- Low centre of gravity for maximum stability.
- Quick and easy 'no tools' assembly.
- Individually boxed and flat packed with instructions.
- Soft round styling for high pedestrian safety.
- Fully recyclable.

← Tactical Header available separately (see page 15)

← Patented 'D-Flex' panel hangers allow for easy 'no tools' panel fitting. Flexibility and low friction ensures panel performance

← Stylish steel frame - can be powder coated in any RAL colour (minimum order quantities apply).

← Choice of aluminium panel or magnetic poster pocket (shown).

← Solid recycled PVC or water fillable HDPE polyethylene base options (recycled PVC base shown).

### 'No Tools' Assembly

- Simply push base onto frame.

### OR

- Lift frame with Swinger 2.

### Top Opening Poster Pockets

Patent No. 2464773 EU Design Registration No. 001274229

- Quick and easy poster change.
- Self closing magnetic seals.
- Virtually no risk of poster loss.
- Provides drain channels to prevent weather damage.

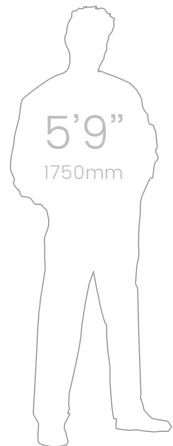

### Built-In Wheels

- Enables safe and easy movement into high visibility positions.
- Fitted on Swinger 3000 and 4000.

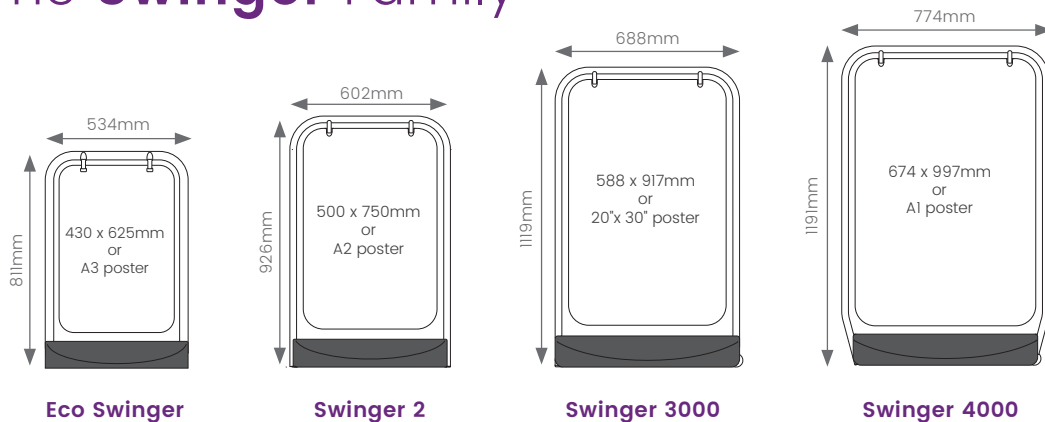

### Water Fillable Bases

- Optimum stability.
- Fitted as standard on Swinger 3000 and 4000.

'Eco-nomical' and 'eco-friendly' – ideal for pavement, roadside and forecourt promotions.

- ← Fully recyclable.
- ← Lightweight, portable design.
- ← Gloss white 1.2mm aircraft grade aluminium panel - ideal for screen/digital print or vinyl graphics.
- ← Rounded corners for pedestrian safety.
- ← Maximum visual impact with optimised display area, plus panel shape opportunities.
- ← Option of black HPL chalkboard panels.
- ← Rugged recycled PVC base provides low centre of gravity and high stability.

Unique patented design

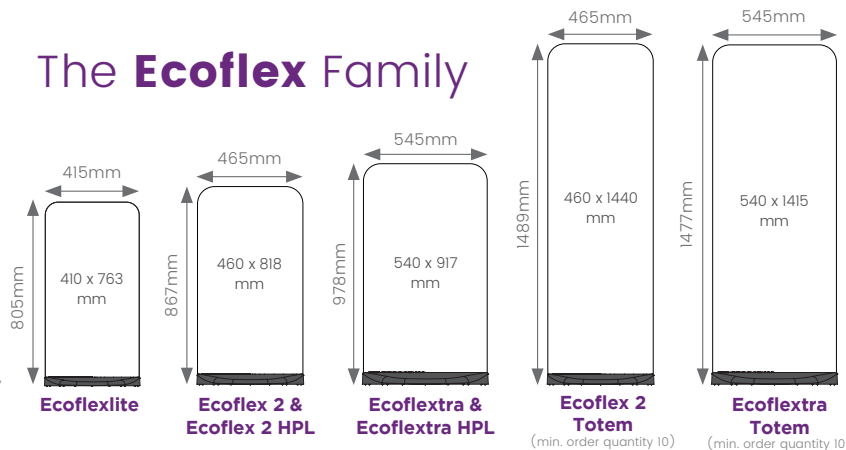

Incredibly secure – wedge simply slots through panel and locks into place.

Ecoflex pavement signs tested to Storm Force 10 Beaufort Scale.

## The Ecoflex Family

Bases available with embossed logos (min. order quantity 500).

# CUSTOM SHAPED PANELS

Create truly unique and eye catching designs with custom shaped aluminium panels, brought to life with our vibrant screen and digital print.

Made to order  
Minimum order quantity 25

## Chalkboard Panels

3mm HPL (High Pressure Laminate) panel material is a tough writing surface ideal for all chalks and pens.  
Panels available for Ecoflex 2 and Ecoflextra sizes as standard.

Great for personalised messages, changing promotions and special offers.

Options of branded panels using direct print or self adhesive vinyl.

Chalk Pens also available (see page 160).

Note: Chalkboard panels can only be used in bases manufactured to suit a 3mm thick panel.

## Light on price, big on performance.

- Ecoflexlite may be the smallest in our range, but it packs a punch with its 410mm x 763mm display area.
- Aircraft grade 1.2mm aluminium panel is ideal for vinyl graphics, screen or digital printing.
- Unique patented wedge means assembly and disassembly in seconds, with no tools required.
- Recycled PVC base provides great stability.

Shaped panel options also available (minimum order quantity 25).

# Forecourt Signs

- 
- **Sightmaster**
  - **Sentinel**
  - **Defender**
  - **Cyclone 2**
  - **POW!**
  - **Bollard Wraps**
  - **Sign Covers**
- 

High impact, durable and repositionable outdoor displays, our market leading forecourt signs are the perfect solution. Our signs are well suited to petrol and dealer forecourts, supermarkets, out of town retail parks, and any store front location where high visibility promotion is required.

For a small budget we have the **Sightmaster 3** poster sign, featuring a water fillable base and snapframe display. Our flagship **Sentinel®** is designed and manufactured for maximum stability and long term performance, as tried, tested and trusted by many of the UK's leading brands and retailers.

## The ultimate forecourt poster sign.

Smooth rounded corners for safety.

Zinc phosphate and polyester powder coated steel frame (50 x 25mm oval).

Silver border and frame as standard. Also available branded or printed with custom coloured frames (minimum order quantity 25).

Clear polycarbonate poster covers offer high impact resistance and UV stability.

Built-in wheels - easy to move with our purpose designed trolley (see page 47 for details).

Magnetic poster covers for quick and easy poster change.

Sentinel Tactical Header available separately (see page 38)

Stainless steel tamper-proof fixings retain poster cover at the top and enable easy poster change by one person (on 30" x 40" and bigger)

Back panel can be printed to ensure brand presence when posters are not in use (minimum order quantity 5)

Magnetic poster covers provide superior weather resistance and poster security.

Water fillable polyethylene base precisely calculated for optimum stability, made using recycled materials.

Black base as standard to hide dirt and marks.

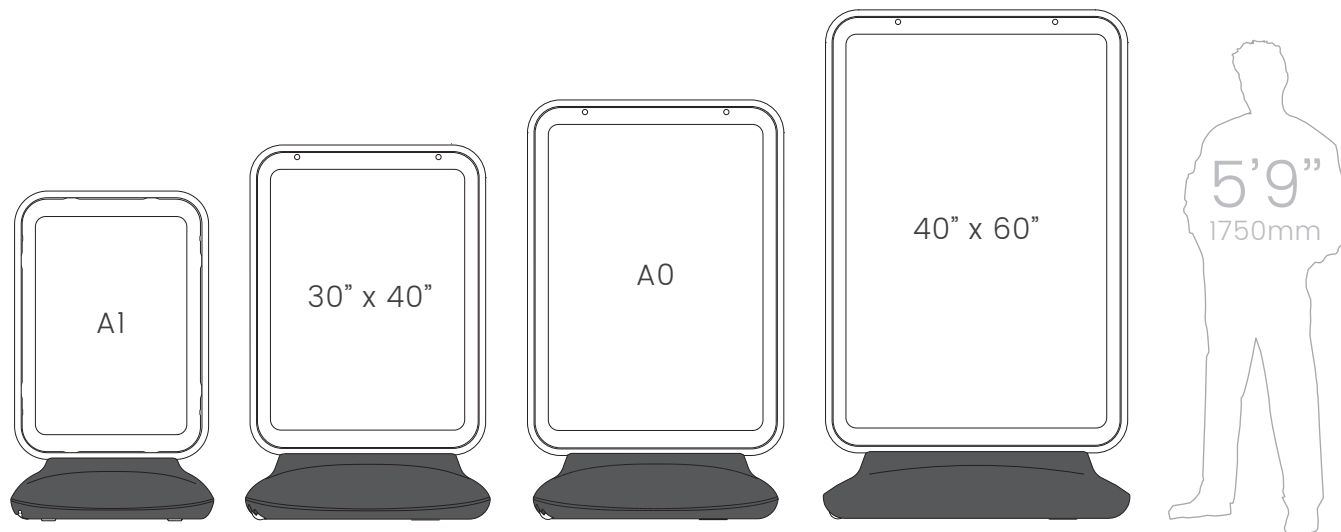

Sentinel® working hard for major retailers across the country.

Lower cost, lighter weight base option available for 30" x 40" and A0 sizes. Volume/contract enquiries only.

External poster signs are a powerful advertising tool. With 70% of purchase decisions made in-store, driving footfall inside is key. Nothing does that better than Sentinel® in a choice of 4 high impact poster sizes.

Available in 4 stock sizes

Poster Size	O/A Dimensions (w x h x d mm)	Display Area (mm)	Weight (kg) Empty/Full	Order Code

# SIGHTMASTER 3

Stylish spring mounted snapframe forecourt sign in a range of poster sizes.

The Sightmaster range has proven a popular large format display solution – delivering cost effective tactical promotion in any forecourt position. The Sightmaster 3, available in two colour options with advanced style, stability and performance.

- Front opening aluminium security snapframes for quick and easy poster change. Comes with opening tool and spanner.
- High strength ACM back panel has smooth white fascias for option of self adhesive vinyl graphics, or liquid chalkpen messaging if posters are not in use.
- Unique water fillable HDPE base with built in wheels.
- Heavy duty spring mounts ensure stability by allowing panel deflection in the wind.
- Anti-glare PVC poster covers ensure clarity of message.
- Soft round corners for safety.
- Transit trolley available to aid movement when base is full – 30" x 40" and A0 sizes only.
- Ideal for forecourts, entrance approaches, car parks, retail outlets and shopping centres.

Large base designed for use with our transit trolley (see page 47 for details).

Nylon feet reduce wear and increase stability on uneven surfaces.

Exclusive design base has optimised water capacity for advanced stability.

Improved corner brackets on 30" x 40" and A0 sizes.

**In stock**

**6 minutes to assemble and fill base**

**Fully Recyclable**

# POW! SIGN

Patent No. 2541956

Going above and beyond the standard rectangular poster or banner sleeve, the **POW! Sign** is guaranteed to draw attention.

This innovation in large format signage introduces striking 'breakout' shapes. A new dimension to all leisure, retail and forecourt locations.

**Made to order**  
Minimum order quantity 10

**8 minutes to assemble and fill base**

**Fully Recyclable**

Ideal for breakout shapes and disruptive designs.

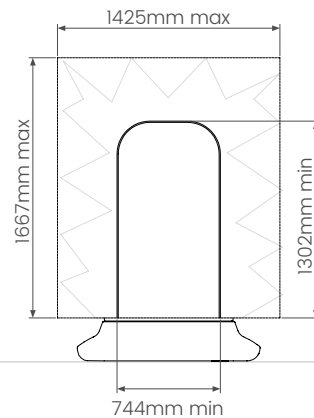

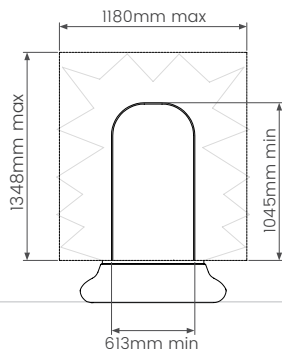

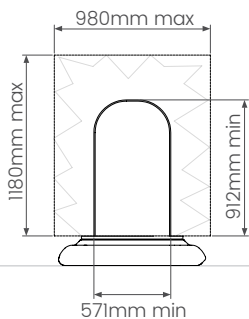

Panel slots into place effortlessly.

Cost effective graphic updates in less than 2 minutes.

Purpose designed trolley & hose available separately (see page 47 for details).

## Base Options

### Waterfill Base

- Black water fillable polyethylene base.
- Built-in wheels for tactical positioning.
- Option to take inside at end of trading.
- Lightweight distribution to site.

### Concrete Base

- For more permanent positioning.
- Lower cost material but generally higher distribution cost.

### Bolt to Ground

- For more permanent graphics bolt frame into concrete floor.
- \* Note: Retailers must have permissions to do so.

# CYCLONE 2 Patent No. 2464696

## Stable and stylish, robust and refined.

- Double sided 40" x 60" poster display.
- Front opening aluminium snapframes for quick and easy poster change.
- White 'Frameworkz' frame as standard – available printed or suitable for vinyl application.
- 700 micron PET poster covers give excellent clarity, fixed along top edge for ease of poster change.
- Steel cradle with hard wearing pivots, allowing panel to move in the wind (black finish only).
- Robust water fillable HDPE base for optimum stability (57 litre capacity).
- Round corners throughout for safety.
- Built in wheels for ease of movement.
- Purpose designed trolley available to assist in moving unit, and hose with tap connector for convenient base filling (see page 47 for more details).

Front opening snapframes for quick and easy poster change.

Frames available printed or suitable for vinyl application.

Hard wearing pivots allow panel to move in the wind.

**In stock**

**8 minutes to assemble and fill base**

# Cafe & Rope Barrier Systems

---

• **Adfresco Café Barrier**

• **Adfresco LT**

• **Pole & Rope Barrier**

---

**Advertise and manage space simultaneously with these stylish market leading products.**

**We are the only providers of the Adfresco® Café Barrier** hardware. Manufactured to our patented design and quality standards; it combines style and performance at an attractive price.

Banners can be produced to your customer's requirement.

The **Adfresco®** poles and bases can also be used to create an attractive queue management system with either twisted or velvet ropes, available in three colours.

# ADFRESCO® CAFÉ BARRIER

Patent No. 2472843

Stylish, strong and effective – create the perfect space for your customers and brand. Available in Stainless Steel or Satin Black.

Stainless Steel showing lower cross rail and sliding ring tether option.

Satin Black pole

- Unique patented design with market leading features and benefits.
- High quality stainless steel for optimum outdoor life and scratch resistance.
- Tough satin black pole and base for an alternative look.
- 13.5kg x 360mm diameter base provides excellent stability.
- Lower cross rail for full Equality Act compliance or lower cost bungee fixings available.
- Flat packed for easy storage and transport.
- Easy to assemble. Spanner included with base/pole fixing set.
- Stainless steel top cross rail.
- Choice of banner sizes and materials including Light-Block PVC, Mesh PVC and Polyester Canvas.

For greater value – LT Base and Pole.

- Stainless steel.
- Stainless steel top cross rails.
- Low profile concrete filled base. Weight: 10.3kg.
- Supplied with cost effective bottom bungee tether.
- Same choice of banners as Adfresco®.

## Unique features of Adfresco® Café Barrier:

52

### Top/Clip

Sleek top designed for comfortable lifting, comes with quick release cross rails. Supplied with a protective cover to prevent damage in transit.

### Adfresco® Sliding Ring

Unique patented 'smooth glide' ring allows banner to flex and eliminates wind damage associated with traditional designs. Adfresco® only.

### Chrome Plated 'Eye Plate'

An additional mounting chain suitable for cross rails.

### Adfresco® Base

Concrete filled 13.5kg rubber edged base provides optimum stability, prevents damage to floors and gives the option to roll rather than lift.

### Bottom Cross Rail

Optional rigid lower cross rail provides audible 'tap' for visually impaired (Equality Act Compliant). Not available with LT.

### Bungee Connector

Optional lower bungee connector holds banner taut – a cost effective alternative to a bottom cross rail. Prevents over stretching of banner.

In stock

### Recyclable

Stainless steel poles and bases. Designed for easy 'end of life' recycling

# ADFRESCO® CAFÉ BARRIER – SELECTION TOOL

Adfresco® allows you to individually select the elements to create your perfect Café Barrier – all with market leading features and benefits.

## 1

### Choose your poles & bases

#### Stylish and strong stainless steel

Optimum outdoor life and scratch resistance.

OR

#### Classy and cost-effective satin black

A popular alternative to stainless steel.

#### LT Pole & Base

Stainless steel. Only available with lower bungee option.

## 2

### Choose your lower tethering method

#### Double cross-rail option

Provides strength, tautness and Equality Act compliance.

OR

#### Single cross rail and lower bungee option

Select the bungee pole connector and bungees instead of a second cross rail.

Sliding ring

Protective washer to be used with sliding ring

Bungee

Bungee connector

3

### Choose your banner width

For the most exposed locations a shorter banner width performs best: eg. sea front cafe - 1200mm.

4

### Choose your banner material

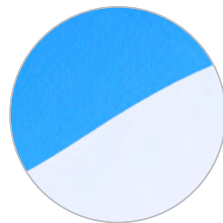

Choose from a wide selection of printed banners available in a choice of materials – all suitable for outdoor use.

#### Light Block PVC

780gsm

Reinforced and totally opaque, this is perfect for double sided print, long outdoor life and vibrant colour reproduction. The easy wipe clean surface makes it ideal for front of house food and drink environments.

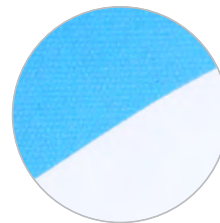

#### Polyester Canvas

450gsm

This close weave 100% polyester fabric has all the appearance, weight and feel of a traditional canvas yet, unlike cotton based canvases, it is cost effective and will not rot or stain. Available full colour printed to one side with the option of white or single colour on the reverse.

#### Mesh PVC

380gsm

Provides a semi transparent finish and allows some air to pass through making it ideal for windy locations & subtle branding. Full colour print is available on one side (white on reverse).

All of our banners are suitable for outdoor use. To maintain best appearance, occasionally sponge down with warm soapy water. Use ratio: 30ml liquid soap / 10 litres water.

# POLE & ROPE BARRIER

Choice of our Adfresco® Poles and Bases or LT Pole and Bases, with a range of rope styles and colours.

- Adfresco® Pole and Base offers the highest quality 3-series stainless steel or satin black poles with high chip/scratch resistance.
- The LT Pole and Base choice offers the lowest cost option.
- Quick and easy to assemble – simple pictorial instructions and spanner included.
- Ropes feature easy 'clip in' attachment – intuitive quick release operation.
- Flat packed for ease of distribution and storage.
- Polished brass finish also available. Minimum order quantity 100. Extended lead times apply.

# Projecting Signs & Flags

- 
- **Flange Signs**
  - **Noscrewz**
  - **Giant Pole**
  - **Standard Flag Kit**
  - **Flying Banners**
  - **Sucker Flags**
- 

A range of free standing, wall and glass mounted projecting signs and flags for retail, events and exhibitions - inside or out.

It includes our high quality **Feather, Teardrop** and **Rectangular Flying Banners** incorporating the finest carbon fibre poles and friction free bearing spindles for optimum outdoor performance.

**Projecting Flange Signs** are available in three standard shapes, we can also make them to custom shapes and sizes. We can also produce displays flags in custom designs for use with our **Standard Flag Kit** and our patented **Noscrewz Flag Kit**.

# FLANGE SIGNS

Low cost, high impact flat projecting signs, available in 3 standard sizes.

- Cost effective, double sided shop front advertising.
- Exceptional value with 5 plus years of outdoor life.
- 2mm aluminium panels with a gloss white polyester powder coated finish – ideal for vinyl application.
- 50mm fixing flange, pre-drilled with round fixing holes as standard.
- Available digitally and screen printed (no minimum order quantity for digital print, screen print minimum order quantity 25).

**Fully Recyclable**

# SUCKER FLAGS

## Visible and versatile – inside or out.

- Ideal for chillers, product displays, static vehicles or windows.
- Polyester preprinted flags complete with black reinforced elastic hem.
- Simply secures to smooth surfaces such as glass, plastic or metal.
- Carbon fibre pole keeps flag tight and swivels in the wind.
- Adjustable angle and double sided print for 360 degree effectiveness.
- Quick and easy to change flags for new promotions.
- Kit includes pole bracket and flag.
- Black reinforced elastic hem provides optimum strength.

## Ways to display:

Perfect for chillers and display cases.

Great for forecourts and showrooms.

Also ideal for use on shop frontages.

### Made to order

Minimum order quantity 100

### No tools assembly

Item	Dimensions (mm)	Weight (kg)
Sucker Flag complete unit (flag incl.)	290 x 720	0.15

Easily adjustable angle for any situation

Single lever secures flag and allows quick release

## Ideal for glass mounting.

- Safe, tamper proof and secures on any smooth surface.
- Incredibly quick and easy to use, simply push onto surface and twist. No tools required.
- Kits include bracket, sectional pole, collar and finial.
- Suitable for internal and external use.
- Plain 'Display Flags' held in stock (780gsm reinforced light block PVC), ideal for vinyl application and available printed to order.
- Custom shaped flags also available (minimum order quantity 25).

### How does Noscrewz work?

A simple twist creates a vacuum that locks the bracket in place.

Simply twist back and pull upper or lower tab to release bracket.

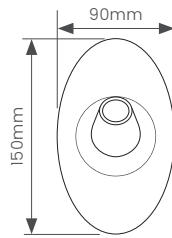

**In stock**

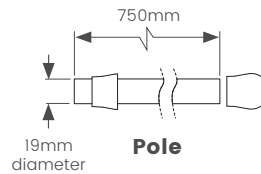

**No tools assembly**

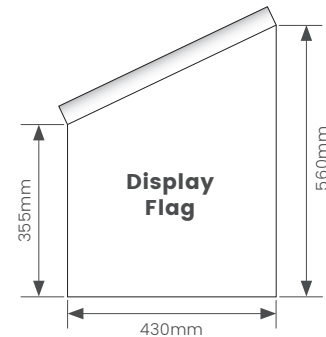

**Recyclable**  
PVC/ASA bracket, PVC pole, polypropylene collar and finial, and reinforced PVC flag

**Bracket**

**Pole**

**Display Flag**

\* Care is required if using Noscrewz for oversized (wider and/or taller) flags. Unless the pole is shortened (use of fewer pole sections during assembly) we would only recommend flags in our standard 780gsm reinforced light block PVC up to a maximum of 0.25m<sup>2</sup> (less than 200g in weight).

Item	Dimensions (mm)	Colour	Weight (kg)	Order Code
Noscrewz Flag Kit (bracket, pole, finial and collar)	Bracket: 90 (w) x 150 (h) Pole length: 150/300/450/600/750 Pole diameter: 19	White	0.4	NOSCREWZ2
Display Flag	430 x 355 x 560	White	0.2	FLAGTRADE

# STANDARD FLAG KIT

## For wall mounting.

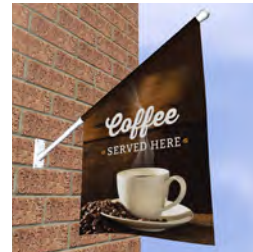

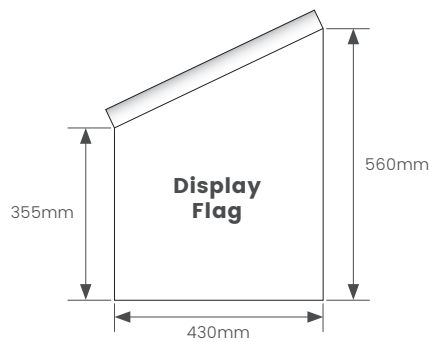

- Tapered socket ensures excellent pole grip and prevents loss of flags in windy conditions.
- Suitable for screw fixing to walls.
- Kit includes polypropylene bracket, PVC pole, finial and collar.
- Plain 'Display Flags' held in stock (780gsm reinforced light block PVC), ideal for vinyl application and available printed to order.
- Custom shaped flags also available (minimum order quantity 25).
- Marine grade polyester stitching ensures for complete pole/flag security.

# FLYING BANNER SELECTION TOOL

## 1

### Shape & Size

Choose between Feather, Teardrop and Rectangular Banners.

All shapes are available in small, medium and large sizes.

Feather  
Page 67

Teardrop  
Page 68

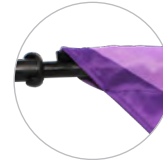

Rectangular  
Page 69

## 2

### Pole Sleeve

Non elasticated wrap around pole sleeves supplied as standard or reinforced black elasticated sleeves are available at a small additional cost.

Standard wrap-around  
non-elasticated sleeve.

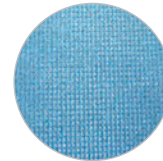

Black reinforced  
elasticated sleeve.

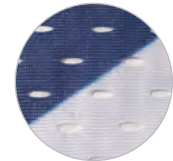

## 3

### Flag Material

'Close-weave' polyester (115gsm) fabric supplied as standard and 'Airmesh' polyester (135gsm) is available at a small additional cost. Refer to opposite page for more details.

'Close-weave' polyester  
(115gsm)

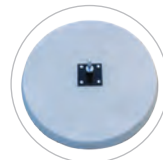

'Airmesh' polyester  
(135gsm)

## 4

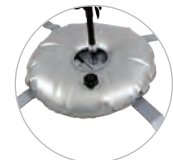

### Mounting Accessories

Whether your banner sits on hard or soft ground, indoors or outside, we have a mounting accessory perfect for every occasion.

See pages 73-75 for full details of mounting options.

Concrete base

Cross base & water bag

Tank base

Ground spike

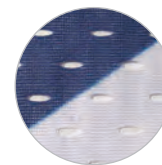

Wheel base

## Flag Materials

Our standard flag material is a 115gsm 'close-weave' knitted polyester textile, chosen for its durability and image vibrancy. For optimum performance, a 135gsm 'airmesh' material is also available which, thanks to small holes in the fabric, presents less resistance in the wind.

Standard 'close-weave' polyester flag material (115gsm).

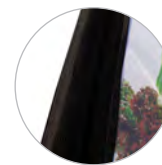

Optional 'airmesh' polyester flag material (135gsm).

## Flag Pole Sleeves

As standard, our flags are supplied with printed, non-elasticated wrap-around pole sleeves, giving maximum possible printed display area. For extra durability, we also offer a reinforced elasticated black sleeve. We recommend this for flags in exposed and unattended locations, such as roadside and 24/7 retail sites.

Printed wrap-around sleeves fitted as standard on all Flying Banner flags.

Optional black reinforced elasticated sleeve.

## Dye Sublimation Printing

All Flying Banners are printed by a dye-sublimation process which uses special inks and a post-print heating process to 'fix' the ink into the fabric, making it resilient and washable as well as maximising the mirror image show-through on the reverse.

## Outdoor Performance

Naturally, Flying Banner life span depends on how and where they are used.

Teardrop flags generally last longer than Feather flags as the banner fabric is held in tension and experiences less movement.

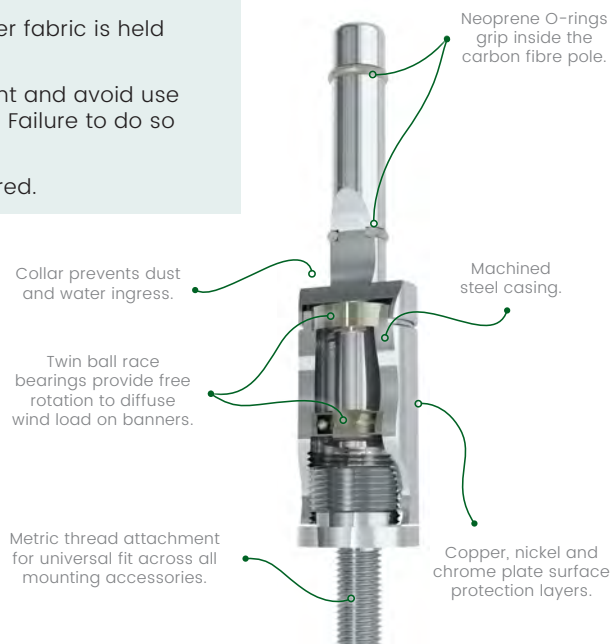

Whichever style you choose we recommend taking them in overnight and avoid use in inclement weather (i.e. 24+ mph wind speeds/Beaufort scale 6). Failure to do so will significantly shorten the lifespan of the product.

\* Flag templates available on request, if own flag production preferred.

## Anatomy of our Bearing Spindle

## Engineered for optimum flag life and performance

Our stylish and intelligently engineered steel bearing spindle features in all our Flying Banner mounting accessories (see pages 71-73). It allows friction free flag rotation, so flags can easily align themselves in the wind, minimising banner turbulence for best visibility and reducing strain on the flag to maximise lifespan.

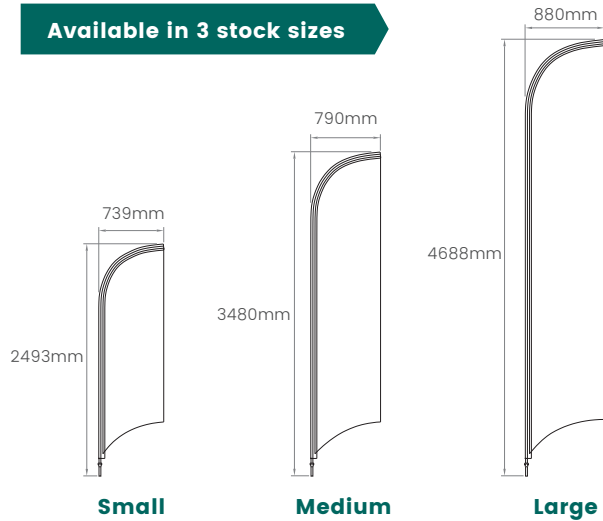

# FEATHER FLYING BANNER

Feather shaped banner which flutters and rotates in the wind.

- High strength sectional carbon fibre pole.
- Market leading detail, quality and performance.
- Printed flags in standard or airmesh polyester textile to order.
- Choice of mounting accessories available.
- Printed, non-elasticated 'wrap-around' pole sleeves giving maximum possible printed display area as standard.
- We recommend an elasticated black pole sleeve for increased durability.

Available in 3 stock sizes

Showing black reinforced elasticated pole sleeve and Base Plate

Black canvas bag supplied with each pole includes compartments to store flag, ground spike and water bag.

Adjustable draw string tethers for optimal tensioning.

# TEARDROP FLYING BANNER

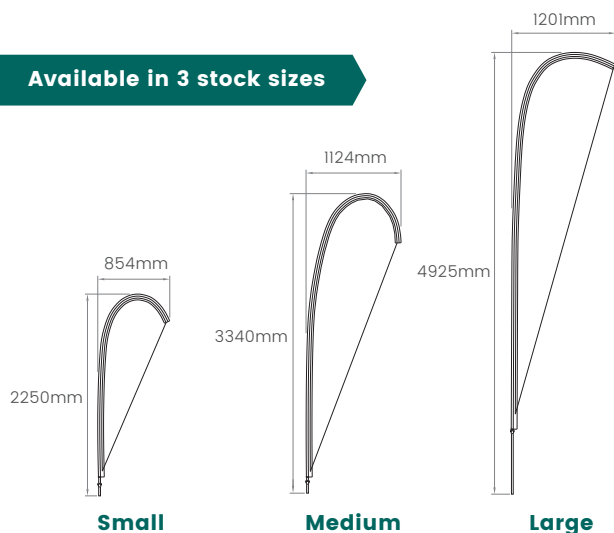

## Teardrop shaped banner which rotates in the wind

- High strength sectional carbon fibre pole.
- No fluttering means less distress and increased durability.
- Market leading detail, quality and performance.
- Printed flags in standard or airmesh polyester textile to order.
- Choice of mounting accessories available.
- Printed, non-elasticated wrap-around pole sleeves giving maximum possible printed display area as standard.
- We recommend an elasticated black pole sleeve for increased durability.

# MOUNTING ACCESSORIES FOR FLYING BANNERS

## Cross Base and Water Bag.

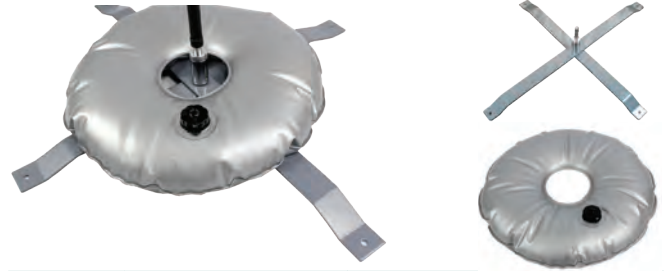

- Stable base for Flying Banners.
- Ideal for use on hard ground, indoors or out.
- Powder coated grey steel cross base, with high quality low friction bearing spindle for smooth flag rotation.
- Holes at end of feet for pegging to soft ground if required (pegs not supplied).
- Optional water bag for added stability.

In stock

**Recyclable**  
Steel cross base and spindle

Item	Dimensions (mm)	Weight (kg)	Order Code
Cross Base	Length: 840 Width: 60	4	FBBASE(2)
Water Bag	540 diameter	Empty: 0.4 Full:10.6	FBBAG(H)

## Ground Spike

- Steel spike for soft ground or sand.
- Bearing spindle for smooth flag rotation.
- Male pole connections with 'O' rings provide a perfect and secure fit as well as offering free rotation to deflect wind loading.

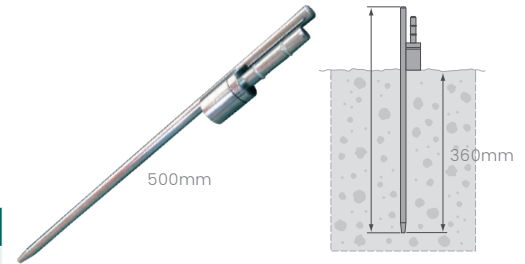

In stock

**Recyclable**  
Steel ground spike

Weight (kg)	Order Code
1.2	FBSPIKE(2)

## Wheel Base

- Black powder coated steel feet with chrome plated steel bearing spindle (total weight 4kg).
- Folding design for easy storage.
- 'V' shape allows base to be wedged under any parked vehicle wheel (or driven onto).
- Suitable for all tyre sizes.
- Conversion kit with appropriate poles, gives full height visibility and provides flag clearance away from the vehicle's bodywork (available for small and medium only).

In stock

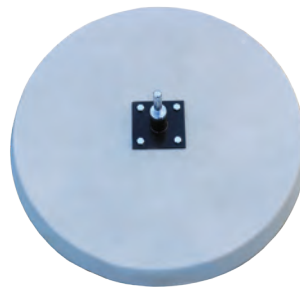

**Recyclable**

## Concrete Base

- Heavy duty 67kg base solution - ideal for semi-permanent positioning.
- High quality low friction bearing spindle for smooth flag rotation.
- Spindle assembly comes with 4 bolts and spanner (concrete base pre-threaded).
- Lever points provided for ease of movement.

\* Note - due to weight of base, pallet delivery is necessary.

Item	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code

Bearing spindle with Mounting Plate	100 x 132 x 100	0.7	FBCONCBRG

In Stock

3 minutes to assemble

## Tank Base

- A purpose designed water or sand fillable base with our leading low friction bearing spindle for all flag sizes.
- Far superior to alternative 'parasol' base offerings.
- 14 ltr capacity, for water or kiln-dried sand.
- Made from high density polyethylene (HDPE).
- Designed for ease of handling even when full - satisfies manual handling guidelines.
- Stackable design - second tank (part FBSMTK) recommended for large flags outdoors. Provides up to 40kgs of ballast but remains easy and safe to carry in 2 parts.
- Built-in carry handle for ease of movement.
- Screw cap for ease of filling.

# MOUNTING ACCESSORIES FOR FLYING BANNERS

## Wall Mount Bearing Spindles (Angled & Vertical)

- High quality, carefully engineered bearing spindle mechanism enables the use of flying banners from a wall situation without having to use floor space.
- Black powder coated gloss finish mount.
- 360 degree rotating spindle mechanism allows banner to move with the wind.
- Fixings are not supplied and appropriate screws should be selected to ensure the bracket is held safely in place.
- Angled Wall Mount Bearing Spindle is angled at 25 degrees and ideally suited at mid to head height to allow clearance of the printed flag from pedestrians.
- Angled Wall Mount Bearing Spindle is suited to small flags only.
- Vertical Wall Mount Bearing Spindle is suited to low walls where the banner can fly freely above the top of the wall.

Item	Weight (kg)	Order Code
Angled	0.83	FB25DGWALBRG
Vertical	0.85	FBVERTWALBRG

In stock

10 minutes to assemble

Fully Recyclable

## Base Plate

- Stylish low profile base solution for interior applications only eg. exhibitions, retail, malls, showrooms, sport and leisure venues.
- Matt black non reflective base finish.
- Integral spigot grip-feature holds pole/flag position and desired 'best line of view'.
- Unobtrusive low-profile height - Base Plate sits just 9mm above floor.
- 3mm thick foam foot pads provide floor protection and ease lifting.
- 2 sizes: Small Base Plate for all small flags and Large Base Plate for all medium and large flags.
- Allen Key tool included to fix spigot to base.

Item	Dimensions (mm)	Weight (kg)	Order Code
Small Base Plate	300 x 300 x 9 (plate 6mm thick)	4.2	FBBASEPLATESM

# GIANT POLE

## Huge attention grabbing outdoor display.

- High impact display for 1.1 x 4.1m textile flag.
- Ideal for forecourts, shopping centres, exhibitions and events.
- 2-part water fillable polyethylene base for optimum stability.
- Telescopic aluminium pole with silver anodised finish (54mm diameter at base).
- Printed flags available to order (single and double sided).
- Printed by dye sublimation - see page 176 for more details.
- No tools assembly.

### Double Sided Flags

A twin layer of standard polyester fabric with central liner allows different designs on each side and a good level of opacity. Due to the added weight, double sided flags will not flutter in the wind in the same way as standard flags.

360° rotating flag arm.

Telescopic pole.

2 part base for ease of transportation.

Item	O/A Dimensions (w x h x d mm)	Weight (kg) Empty/ Full	Availability	Order Code

  - **Counterstand**
  - **Cable Suspended**
  - **Minimus**
- 

We have one of the largest ranges and stocks of snapframes in Europe. We are very competitive, however our price is not at the expense of quality.

When you are thinking of buying a snapframe from elsewhere, particularly for outdoor use, ask the supplier if the poster cover sheets are UV stable. In other words, can they guarantee that the cover sheet will not tarnish within 6 months due to sunlight? We can! It is important for the customer whose main interest after all is an optically clear view of their poster message and branding.

We manufacture a wide variety of non-standard sizes and quantities, with no minimum order quantity. Fourteen stock finishes support our **express made to order service**, which commits to turnaround small quantity orders within 3-5 days.

We also provide a **custom manufacture service**, which offers a further 74 RAL colours and over 20 BS 4800 colours. This service is offered in a range of frame profiles with the standard, security and lockable styles. Minimum order quantities may apply in some cases.

# SNAPFRAMES

Low prices

Large stocks

Fast delivery

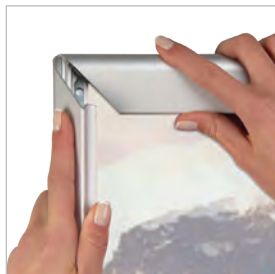

Wide range  
of styles

## All our Snapframes feature:

- Quick and easy poster change.
- When closed, all fixings and opening methods are hidden from view.
- Silver anodised finish as standard (unless otherwise stated).
- Anti-glare poster cover sheets.
- Pre-drilled and individually boxed with screws and wall plugs.
- White or grey plastic back panels depending on size/style.
- Suitable for indoor or outdoor use. Note - poster cover sheets are not fixed and in high winds can become dislodged, wider frame profiles provide better poster security.

For added security, see our **Security** (P. 84) and **Lockable Snapframes** (P.85).

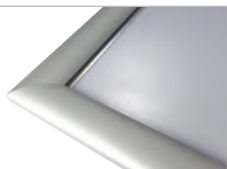

Front opening snapframes for quick and easy poster change.

## Snapframes to match your branding.

### Silver Anodised

15, 25 or 38mm standard and 25mm or 42mm security profiles.

\* Standard sizes in stock – see page 79

- No minimum order quantity.
- Fast lead times – typically, 1-10 frames (3-5 days), 11-25 frames (5-7 days).
- Almost any size (minimum poster size: 210 x 210mm).
- Oversize frames (>1.5m<sup>2</sup>) may require collecting by customer if too large for our parcel delivery provider or for palletising.

# MINIMUS

Patent No. 2531204

## The lowest cost snapframe in the world.

Minimus Snapframes may not have a back panel but they provide a great way to display posters, advertisements and information on flat surfaces.

Our patented corner mouldings and high strength serrated springs keep the frame strong, secure and dependable.

- 25mm silver anodised profile.
- 4 stock poster sizes: A4, A3, A2 and A1.
- UV stable anti-glare poster cover sheet.
- Suitable for screw fixing or adhesive mounting (each unit individually boxed with set of screws, wall plugs and adhesive pads).
- If used outdoors laminated posters are recommended.

Fix in place.

Insert poster and cover sheet.

Close the sides.

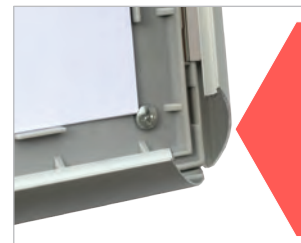

In stock

Fully Recyclable

Poster Size	Display Area (mm)	O/A Dimensions (w x h mm)	Weight (kg)	Availability	Order Code
A4	200 x 285	250 x 335	0.14	In stock	MINIMUSA4

A1	582 x 828	633 x 880	0.42	In stock	MINIMUSA1

Patented corner mouldings with high tension serrated springs ensure strong grip on the poster

# SECURITY SNAPFRAMES

Posters are kept safe and secure, making these frames ideal for those spaces at risk of unwanted tampering.

- Easily opened by our hand-held opening tool (available separately).
- Available in 2 profile sizes (25mm and 42mm).
- Supplied with anti-glare poster cover sheets for clear poster display.
- Pre-drilled and individually boxed with screws and wall plugs.
- Suitable for either indoor or outdoor use.
- Silver anodised finish as standard – 25mm profile available in almost any RAL colour through our bespoke snapframe service.

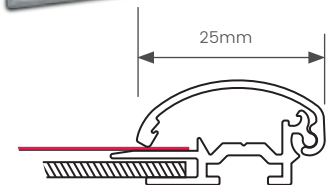

Hand-held opening tool.

Aluminium frames and PET poster covers

## Unlike any other poster frames available, Frameworkz Snapframes can be digitally printed with almost any design.

From logos and text to images and patterns, the choice is yours and the opportunities are truly endless.

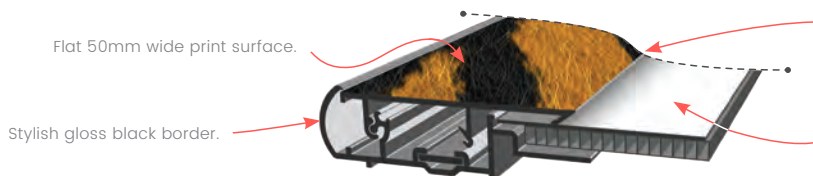

- Front opening aluminium snapframes for quick and easy poster change.
- Suitable for external use (2-3 years in temperate climates).
- Minimal distance between frame and poster allows design to 'cross over'.
- Anti-glare 500 micron PET poster covers as standard or optional 750 micron gloss clear polycarbonate at additional cost.
- Pre-drilled for wall mounting.
- Available in any frame size from A3 to 40" x 60".

**Made to order**  
Minimum order quantity 10

**Recyclable**  
Aluminium frames and PET poster covers. Mechanical fixings throughout for easy 'end of life' recycling

When closed, all fixings and opening method are hidden from view.

Minimal distance between frame and poster allows design to 'cross over'.

Due to frame cutting and artwork tolerances of +/- 1mm, a visible 'step' across the mitred corners is sometimes unavoidable. Designs featuring straight lines across the corners will be particularly prone to this.

Poster Size	Display Area (mm)	O/A Dimensions (w x h mm)	Profile Depth (mm)

# Non-Illuminated Poster Frames & Noticeboards

- 
- **Slimlok Poster Case**
  - **Slimlok Menu Case**
  - **Slimlok Noticeboard**
  - **Hi-Sight**
  - **Headliner**
  - **Poster Pillars**
- 

Our selection of Non-Illuminated Poster Frames and Noticeboards offer an array of solutions for poster, banner and menu presentation.

The range includes our market leading **Slimlok Menu Case**, great for temporary poster promotions. Our original **Slimlok Poster Case** offers retailers a truly lockable display solution. Both are available in a range of standard sizes in a choice of up to 8 stock colours with no minimum order quantity. Additional colours, bespoke sizes and even permanent branding can also be accommodated, although minimum order quantities may apply in some cases.

Our innovative **Headliner** makes window displays professional, presentable and cost effective. Commonly seen in convenience stores, post offices and supermarkets, the **Headliner** provides an updateable poster display for windows, doors and clear surfaces.

# SLIMLOK POSTER CASE

## Stylish poster display cases with lockable doors.

- 52 x 30mm profile durable aluminium frame.
- Vandal resistant 1.5mm polycarbonate glazing panel.
- Internal clips hold posters securely in place and allows for quick and easy poster changes.
- Ideal for outdoor use.
- Door stays supplied as standard on silver units at A1 or larger (optional on black units).
- Each poster case supplied with a set of keys.
- For added security, poster sizes A1 and larger have two locks.

# HI-SIGHT

Registered Design No. 000879876

Thanks to its unique 'pull down' poster cartridge, the Hi-Sight has many advantages over traditional poster frames.

- Can be mounted up to 3 times higher than a regular frame.
- Quicker, easier and safer, no need to stretch or use ladders.
- Reduced risk of tampering and vandalism.
- Hard wearing aluminium frame.
- Fixed polycarbonate cover with magnetic seals, virtually no risk of poster loss.
- Excellent weather resistance.
- Suitable for indoor and outdoor use.
- Hidden pre-drilled holes, ready for wall mounting.

Apply finger pressure just above border and lift.

Poster cover security fixings.

Internal frame detail.

Ideal for out of town retailers. The Hi-Sight maximises visibility of store front promotions – vital in the drive for greater awareness and increased sales.

Traditional frames – low visibility.

Hi-Sight – high visibility!

Posters are held in place by 4 'pinch' holders on top of cartridge

Open 'poster-pinch' mounts to add or change posters.

Place poster within 'poster-pinch' opening.

Close 'poster-pinch' mounts to pierce and grip poster.

Poster Size	Display Area (mm)	O/A Dimensions (mm)	Weight (kg)	Order Code

# Illuminated Poster Frames, Noticeboards & Displays

- 
- **Edgelit XT**
  - **Slimlok Illuminated Menu Case**
  - **D-Light**
  - **Freelight Plus**
  - **Hi-Light Menu Stand**
  - **Illuminated Totem**
- 

Our **Freelight Plus**, the simplest in-store illuminated display at one end of the range (without an electrical component in sight!), to the LED illuminated **Edgelit XT**, with it's exceptional brightness levels, build quality and style.

Low voltage LED illumination features across many of these elements. LED's bring key benefits; quick and easy installation, low power consumption and maintenance-free longevity, all combine to deliver eye catching displays with low running costs built in as standard.

# LED & FLUORESCENT LIGHT INFORMATION

## What's the difference between Fluorescent Lights and an LED?

Our range of illuminated displays incorporate LED or Fluorescent tube lighting depending on the size and structure of each unit. Lamp options are carefully considered during the design of our products to ensure for optimal, efficient and even illumination.

### Benefits of Fluorescent tubes:

Fluorescent bulbs are typically used to light up full rooms, so you can ensure for a full and concise illumination from your display. Although they have a slightly higher energy consumption than their LED counterparts, they can still provide over 10,000 hours of illumination before needing to be replaced.

### Benefits of LED lighting:

LED stands for Light Emitting Diode and converts electricity into a super-efficient, long lasting and instant illumination. They have lifespan of around 50,000 hours before needing to be replaced - which converts to around 6 years of constant illumination. LED also use 90% less energy than Fluorescent bulbs, providing retailers with a cost efficient illuminated option.

## Stylish super-slim LED interior light box

- Slim profile single or double sided snapframe LED interior light box
- Front opening snapframes for quick and easy poster change
- Maintenance free Osram LEDs for even white illumination and 50,000+ hours longevity
- Supplied with anti-reflective poster cover sheets ensuring clarity of message
- Power-efficient illumination offers low running costs for life & environmental benefit
- Direct power feed into the lightbox ensures a clean, unobtrusive frame appearance
- Also available in custom sizes\* and colours (minimum order quantity 5)

# FREELIGHT PLUS

EU Design Registration No. 000433131

## The most cost-effective lightbox on the market.

Freelight Plus offers unbeatable **long-term return on investment** – simply change the insert for new promotions or leave in for permanent display.

- Uses existing in-store lighting for illumination.
- Flat-pack design – easy to assemble and install.
- Graphic inserts are quick and easy to update.

### Each kit includes:

- Outer lens panel.
- Opal 'lampshade' PVC insert- ideal for translucent vinyl or printed graphics.
- Pair of end caps.
- Ceiling hooks and 2 styles of 'button' eyelets.

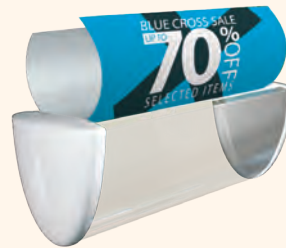

Coloured and/or pad printed end caps available (minimum order quantity 500).

O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
648 x 256 x 226	1.3	FREELIGHTUNB

### Existing Lighting

Suspended ceilings offer prime advertising space and, with existing lighting, are perfect for Freelight Plus.

### Freelight Plus

With no need for wires or power, Freelight Plus is quick to assemble and simply hooks into place using the fixing kit supplied.

### High impact, low cost advertising

Most of the benefits of a traditional lightbox, but without the cost and inconvenience!

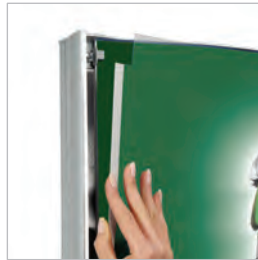

# ILLUMINATED TOTEM

## Double sided freestanding poster displays.

- For internal use only.
- Elegant convex design.
- Front opening snapframe sides for quick and easy poster change.
- Silver anodised aluminium casing with silver coated steel base.
- Anti-glare PET poster covers (permanently fixed on one vertical side with magnetic seal on the other).
- Fluorescent tube lighting (single or double depending on size).
- Supplied with 2m cable and plug.
- CE certificate supplied with each unit.

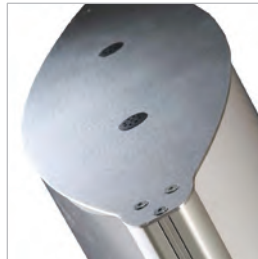

Easy opening snapframe sides.

Quick poster change.

Openings concealed from view.

Ample ventilation to extend display life.

**In stock**

For 700 x 1700mm posters

**25 minutes to assemble**

Ideally by 2 people

**Recyclable**

# Portable Exhibition Displays

- 
- **Curved Pop Up**
  - **Budget Roll-Up Banner**
  - **Rollsby**
  - **Quick Banner**
  - **X-Banner Stand**
  - **Promo Stands**
- 

**All our portable exhibition displays and roll-up banner stands are designed for one purpose – maximum impact at minimum cost.**

All designs are used to attract attention in a wide variety of event, promotion and retail situations, the range is chosen to be focused and functional.

You can buy the hardware only and then add your own graphics, or alternatively, use our print service with competitive prices to avoid hassle and cost.

**Curved Pop-Ups** create a large powerful backdrop, **Roll-Up Banners** prove popular for most situations, and there's a further range of display equipment to give a high visibility presence

# CURVED POP-UP

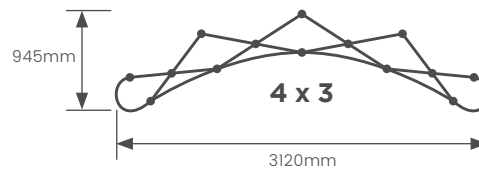

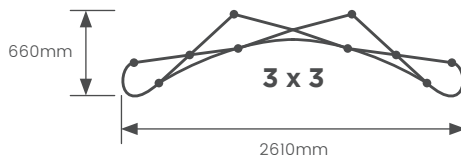

The ultimate exhibition accessory.

## Each kit includes:

- Collapsible aluminium frame (12mm diameter, silver finish) with black injection moulded fittings – sturdy, durable and long lasting.
- Set of magnetic bars and roll of magnetic 'B' tape.
- Roll of magnetic 'A' tape (for vertical panel edges).
- 2 x 150W clip-on spotlights with cable and plug.
- Semi-rigid trolley/case with built-in wheels and telescopic handle.
- Panels supplied with self adhesive 'headers' and 'kickers'. Headers secure panels at top, whilst kickers hold shape at bottom.

## Optional Printed Panels:

- 420 micron opaque white PVC.
- Supplied ready to fit with 'kick-strips' pre-applied.
- Available laminated (80 micron matt textured scratch resistant PVC).

# ECO ROLL-UP BANNER

Low cost, spring loaded 'roll-up' for single sided banners.

- Quick and easy to use.
- Soft round corners - no sharp edges.
- Available in 800mm and 850mm wide banners.
- Self-adhesive strips at top and bottom for easy banner installation.
- Silver anodised aluminium case, top rail, pole and folding feet.
- Complete with black padded carry case and full instructions.
- Available with digitally printed 'standard' 220 micron (0.22mm) rigid PVC or 'premium' 165 micron (0.165mm) polyester film banners.
- Hardware refined for the best flat & vertical banner presentation.

Adhesive top rail bonds to rear top edge of banner.

Black padded carry case included with each unit.

**In stock**

**1 minute to assemble**  
+4 minutes if banner is not pre-loaded

**Recyclable**  
Aluminium case, top rail and folding feet

**No tools assembly**

Banner Size (mm)	Display Area (mm)	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code (Single Unit)	Order Code (Pack of 6)
800 x 2000	800 x 1985	820 x 2050 x 365	3	ERB800(1)	ERB800(6)
850 x 2000	850 x 1985	870 x 2050 x 365	3.1	ERB850(1)	ERB850(6)

**Please note:**

The Eco Roll-Up Banner is designed and built to a market-leading price and the savings derived from the use of lightweight materials and high speed assembly methods to achieve this can result in minor marks or irregularities in the product finish.

**Banner Materials:**

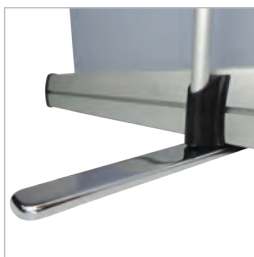

We recommend smooth surface, lightweight rigid roll materials for Eco Roll-Up Banners, such as 125 micron grey back polyester or 220 micron matt opaque PVC. Flexible, reinforced PVC banner materials have a textured surface and/or incorporate polymers which can react with adhesive tape so should be avoided. Do not use materials more than 300 micron thick.

## All round value roll-ups don't come any better than this.

- A useful promotional tool with little hardware costs.
- Single sided roll-up for interchangeable banners.
- Top 'clamp rail' and bottom Velcro strip makes banner installation and update a simple process.
- Two spare self-adhesive velcro strips supplied with each unit for future banner updates.
- Telescopic pole for 1550 – 1990mm height adjustment.
- Stylish silver anodised aluminium casing with black end caps and pole fittings – tough and hard wearing.
- Central stylised chrome foot.
- Premium padded carry case included with adjustable carry strap.
- Available with digitally printed 'standard' 220 micron rigid PVC or 'premium' 165 micron grey-backed polyester film banners.
- Premium banners prevent poster curl and are recommended for regular use.

Hard wearing/protective end caps.

Stylish chrome foot.

Top clamp rail includes black push-fit end caps.

Premium padded carry case included with each unit, featuring separate pocket for pole and adjustable handle/shoulder strap.

# Chalkboards & Accessories

---

- **Chalk Insert Panels**
  - **Grip Chalkers**
  - **Counter/Table Top Chalkboards**
- 

This range includes everything from wall-mounted **Slatted Boards** to **Counter and Table-Top Boards**.

Combined with the modern benefits of liquid **Chalk Pens**, Chalkboards offer traditional marketing charm with instant message change flexibility, making them perfect for menus and short term promotions in pubs, restaurants, cafes and other hospitality venues.

# HIGH PRESSURE LAMINATE (HPL) CHALKBOARDS

## ABOUT HPL

Our remarkable High Pressure Laminate (HPL) chalkboards are capable of almost limitless use and application.

- Stays looking new for longer and never needs re-painting.
- Easy to clean with water and household cleaner.
- Weather and scratch resistant anti-glare surface.
- Suitable for use with traditional chalk and liquid chalk pens.
- Direct to surface screen and digital printing available.
- Available in a range of thicknesses: 2, 3, 4 and 6mm.

HPL's **hard wearing, maintenance free** properties make it ideal for both **internal and external use**. The specially formulated melamine surface means **your chalkboards stay looking new**.

## Custom made, wall mounted display.

- Available in 2, 3, 4 and 6mm thicknesses.
- Virtually any size and shape.
- Drilled ready for wall mounting.
- Available plain or printed, single or double sided.

### Made to order

Minimum order quantity 10 plain or printed.

## Waterproof chalkboard pens.

- Pens are rainproof after just 1 hour yet erasable with a damp cloth.
- Superior colour vibrancy and outdoor durability shown from our independent outdoor tests.
- Top tip... Mr Muscle 'window' is an excellent chalkpen cleaner.

- **Pivot Grippers**

---

This range includes **Stand-Off Sign Fixings** that add prestige to any wall mounted sign. They assist mounting on to uneven surfaces, and ensure no visible dirt build-up behind a clear sign panel. Available from stock in two popular sizes and four finishes.

Another key product in this category is the **Premier A-Board Frame** - available by popular demand. Our two stock sizes allow you to make up A-Boards with a variety of sign panel materials simply and cost-effectively. It also has the benefit of our unique, hard wearing rubber hinges that set it apart from other A-Board designs.

# STAND-OFF SIGN FIXINGS

Add an architectural finish to any mounted sign panel.

As well as providing an attractive stand-off feature for any sign panel material, these fixings will accommodate any uneven wall surface. This could include any texture or render present on brick or stone walls.

Fixing sign panels forward from walls allows air to move freely across both the front and rear - eliminating condensation or any noticeable dirt build-up from behind. This is essential for clear sign materials (like glass or acrylic) so that the message is always visible.

Our fixings have no apparent screw heads, so this concealed mounting method acts as an effective tamper deterrent.

- Enhance the appearance of any sign panel.
- Hold sign panel thicknesses from 2mm to 12mm.
- Supplied in pairs in protective polythene enclosures.
- Screws and wall plugs are not included (since no two surfaces are ever the same, fixings should be selected to suit).
- Use 321 grade Stainless Steel stand-offs for long life in all external locations.

# STAND-OFF SIGN FIXINGS GUIDANCE

### Screw Selection Guide

Stand-off Pillar Size	Max. Screw Head Dia.	Max. Screw Thread Dia.	Hole Size in Sign Panel
13mm dia.	6.6mm	No. 6 (3.5mm)	8mm Required
19mm dia.	8.0mm	No. 8 (4.2mm)	10mm Required

## 13mm diameter

Item	O/A Dimensions (Dia x Stand-off height mm)	Panel Thickness Range (mm)	Order Code
<b>Stainless Steel</b> Self Colour	13 x 19	2 – 10	13X19SSSC
<b>Aluminium</b> Satin Silver	13 x 19	2 – 10	13X19ALSS
<b>Aluminium</b> Chrome Plated	13 x 19	2 – 10	13X19ALCP
<b>Brass</b> Plated Gold	13 x 19	2 – 10	13X19BRPG

## 19mm diameter

Item	O/A Dimensions (Dia x Stand-off height mm)	Panel Thickness Range (mm)	Order Code
<b>Stainless Steel</b> Self Colour	19 x 25	2 – 12	19X25SSSC
<b>Aluminium</b> Satin Silver	19 x 25	2 – 12	19X25ALSS
<b>Aluminium</b> Chrome Plated	19 x 25	2 – 12	19X25ALCP
<b>Brass</b> Plated Gold	19 x 25	2 – 12	19X25BRPG

# PREMIER A-BOARD FRAME

Take the leg work out of sign making.

- These frames offer excellent outdoor life thanks to their all-steel construction with Satin Black polyester powder coat finish. They are available in two sizes (small and large).
- Fully assembled ready for your slide-in panels.
- Will accept various panel materials up to 3mm thick (for small frames), or 4mm thick (for large frames).
- The slide-in design means panels are reversible, offering twice as much promotional opportunity.
- Possible panel materials include: ACM, Foam PVC, Acrylic and HPL.
- Hardwearing rubber hinges also provide self-levelling benefit for stability on uneven surfaces and a comfortable hand hold when carrying.
- Other colours available made to order (minimum order quantity 25).

 **In stock**

 **No tools assembly**

Stylish locking side arm on both sides.

Hardwearing rubber hinges.

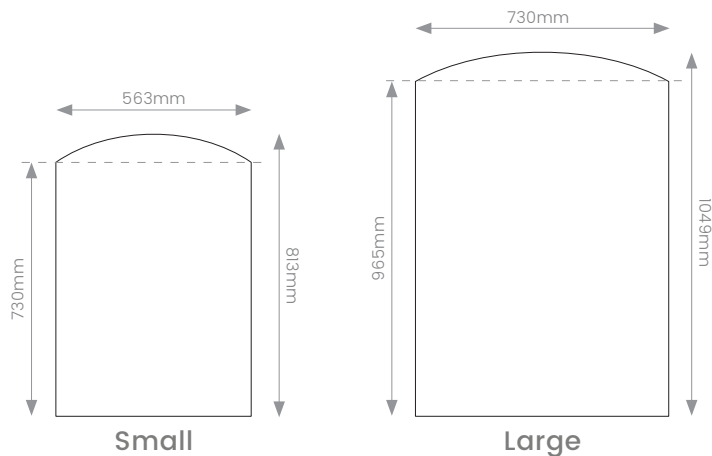

Simple slide-in panel design.

Other colours available made to order (min. order quantity 25).

## Your panel dimensions

Size	O/A Dimensions (w x h x d mm)	Weight (kg)	Colour	Order Code
Small (3mm thick)	645 x 840 x 670	8.1	Black	METALFRAMEASSYSMCH
Large (4mm thick)	810 x 1110 x 690	10.3	Black	METALFRAMEASSYLGRCH

# GRIP-ACTION BASES

Spring powered bases – open by hand, insert panel and release.

- Aluminium with silver anodised finish as standard.
- Spring powered grip action – simply open by hand, insert sleeve and release.
- Holds all materials up to 4mm thick.
- Suitable for self adhesive vinyl, polydome 3D stickers or pad printed graphics.
- Maximum pad print height 15mm. Minimum order quantity 50.
- Available in custom sizes, colours and finishes made to order (minimum order quantity 100).

Take a look at our **GripChalkers** (P.161) and **GripTalkers** (P.141) to see these bases in action.

Simply grip the base open and insert the sleeve

A4	Silver anodised	210 x 18 x 84	SWBASEA4

# PIVOT GRIPPERS

Showcard mounting – ideal for chillers, product displays, shelving gondolas and counters.

- Simply stick to any smooth surface, insert your promotional material and angle as desired.
- Clear polycarbonate design ensures nothing spoils the view of your showcard or product information.
- Accepts card and other sheet materials between 0.8 and 2mm thick.
- Strong 3M self adhesive mounting pad sticks reliably to varied smooth surfaces.
- Adjusts 190 degrees through 10 positions for the very best display angle.
- Why not order showcards and pivot grippers together? The complete solution!

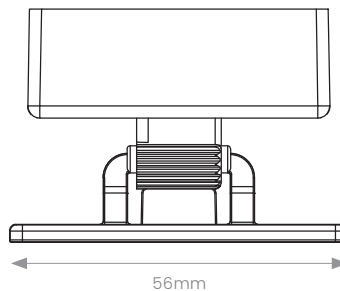

190 degree range of display angles.

# Print Services

---

• **Digital Printing**

• **Screen Printing**

• **Varnish Over-Print**

---

Our production facility offers a broad range of printing options. Including traditional screen, digital and dye sublimation processes.

We provide a range of timely, high-quality and cost-effective services using environmentally friendly materials. Our specialist staff can advise you on all your printing needs, from design to the finished product.

For more information on our printing services and capabilities, speak to our sales team.

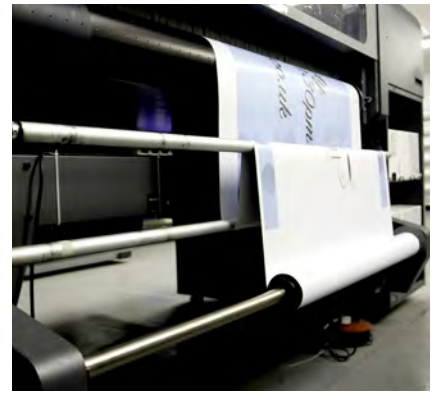

## DIGITAL PRINTING

### The benefits of digital print:

- Prototypes and samples available.
- Allows for print onto unusual and uneven materials.
- High resolution looks great up close.
- Multiple/variable designs in a run.

Digital printing offers faster turn-around and lower cost than screen on smaller runs because set up times are minimal. Your digital artwork files once checked are 'ripped' to a state of the art flat-bed or roll-fed printers which print all colours in a single pass. Output definition and ink percentage are controlled depending on intended use or viewing distance.

It is very common to print a mixture of digital and screen processes to optimise the result and to produce the perfect reproduction of your artwork. Digital is added for full colour elements and screen to add spot Pantone colours and/or varnish.

## SCREEN PRINTING

### The benefits of screen print:

- Precise Pantone or spot colour matching.
- Bold, vibrant colours and text due to thicker ink deposits.
- Simple spot or line colours.
- Extended outdoor life.
- Adding varnish to screen or digital print enriches colour, adds a gloss finish and increases protection.

The screen print process is very different to digital. Because each colour in the design has to be printed separately, a film stencil (screen) needs to be produced for each colour present in the design.

Dye sublimation is a method of printing that forces a layer of ink onto a surface via the use of heat. It is used widely and especially for textiles (soft signage) to produce flags, banners and retail/exhibition graphics.

### Benefits of dye sublimation:

- Is highly scuff resistant as a result of being 'fixed' into the media.
- On textiles produces graphics that can be washed and folded without fear of damage.
- On thinner fabrics it produces excellent show-through. Ideal for double sided flags.
- Dye sublimation can be applied via either digital or screen printing processes. However, quantities less than 100 are generally digitally printed.

## VARNISH OVER-PRINT

Although varnish is not essential, it is recommended for signage intended for outdoor use. As digital print is naturally matte, the finish is more inclined to attract dirt, this will ultimately dull the overall image. Adding a varnish over-print to your artwork will ensure for a brighter and more attractive external display.

### Benefits of varnish include:

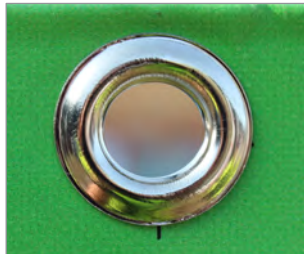

- Enriched colour vibrancy and depth.
- Added protection from dirt and atmospheric pollution.
- Will help to repel dirt and keep the print looking brighter longer.
- Improved scuff and scratch resistance.
- Improved resistance to chemicals and solvents.

# PVC BANNER

High-impact printed display suitable for internal and external use.

- Available for the full range of popular banner sizes; from 1m x 1m up to 1m (wide) x 5m (long)
- Option of custom-sized banners up to a maximum size 3m (wide) x 20m (long)
- Choice of 3 different banner materials including a double-sided print capability
- Folded welded hems provide a 'double strength' perimeter for optimal wind load/tear resistance.
- Corrosion-free metal eyelets are fitted as standard for each PVC Banner
- Supplied with 300mm translucent white nylon cable ties- extremely secure, quick and easy to use to achieve the best banner appearance
- Individually poly-bagged, provides protection through storage and distribution

Gold finish metal eyelet.

All banners supplied complete with tie-wraps.

**Made to order**  
No minimum order quantity

## Front-Lit PVC 440gsm

Our most popular banner material for single sided print only. Front-Lit banners suit fence and wall-mounting locations.

## Light Block 440gsm

Our highest performing banner material, Light Block PVC provides excellent colour vibrancy and a long lasting performance. A light-block layer incorporated within the material prevents 'show-through'. Ideal for either single or double sided print.

## Mesh PVC 500gsm

Provides a semi-permeable surface to allow some air to pass through, making it well-suited for windy locations eg seafronts & site/event fencing. Full colour print is available on single side.

# RECOMMENDED POSTER MATERIALS

To ensure best performance against condensation/moisture ingress in outdoor poster advertising, we recommend:

## For 1–3 months life

### Wet strength, water resistant or waterproof paper (115–200gsm)

Additives included during paper manufacture prevent the paper from breaking apart when in contact with moisture, ensuring it remains strong and stable. These are common specifications for short to medium term poster campaigns and billboard advertising.

## For 3 months+ life

### Lamination

Encapsulating a paper poster in thin sheets of clear plastic. This is a common means of protecting posters for outdoor use when water-soluble inks are used. Delivers reliable performance if the encapsulation is made to seal around the whole perimeter of the poster.

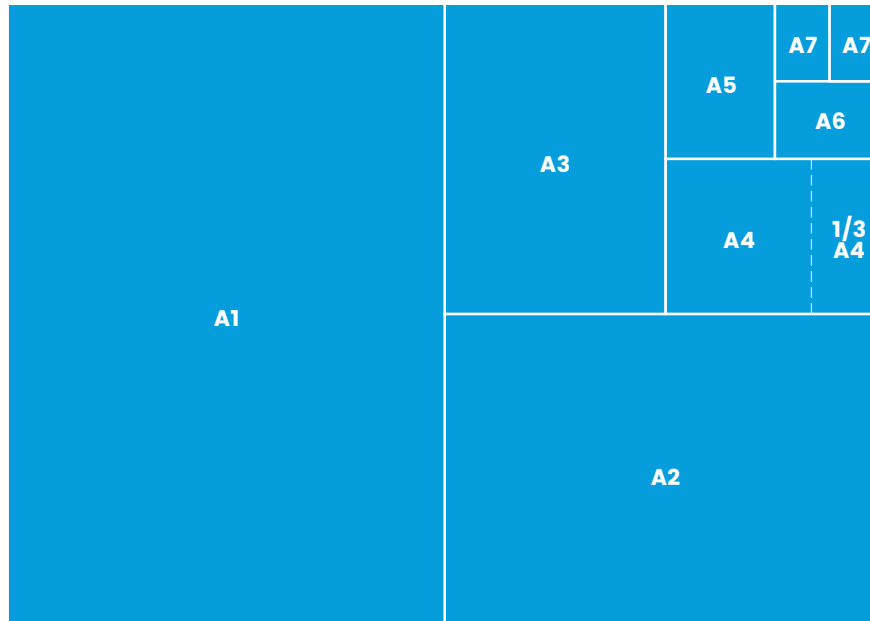

### Printing onto plastic

Synthetic Paper (80 micron minimum thickness polypropylene), sometimes termed 'Poly Poster', or 220 micron PVC are cost effective alternatives for longer-life applications e.g. displaying a business service offer, restaurant menus or repeating seasonal promotions.

## Maximise your poster performance with our design tips

- Use font in lower case with 80mm+ height for fast recognition.
- Simple typefaces make message clearer – avoid serif typefaces and italics.
- Amplify images and messages by using outline silhouette and drop shadow effects.
- Reduce heat absorption (solar gain) on outdoor poster signs by limiting regions of dark colour print.

## Paper Sizes

## Conversion Table

Size	Millimetres	Inches
A7	74mm x 105mm	2 7/8" x 4 1/8"
1/3 A4	99mm x 210mm	8" x 4 1/4"
A6	105mm x 148mm	4 1/8" x 5 7/8"
A5	148mm x 210mm	5 7/8" x 8 1/4"
A4	210mm x 297mm	8 1/4" x 11 3/4"
A3	297mm x 420mm	11 3/4" x 16 1/2"
A2	420mm x 594mm	16 1/2" x 23 3/8"
