# **PremierShipSD**

enables you to enjoy our Same-Day express printing service. To qualify for this service, strict adherence to the following conditions is necessary and without exception.

- 1) PremierShipSD is defined as the time between receiving your correct order and artwork to the time we despatch your order to your chosen destination.
- 2) We must receive your completed purchase order in writing together with the correct artwork before 10am on your required (working day) despatch date.
- 3) Your purchase order must contain all relevant information to enable us to produce your order correctly and despatch it to your chosen address.
- 4) Artwork must be created in Adobe Illustrator and saved as an EPS file with all fonts converted to outlines.
- 5) Maximum order size is 5,000 pieces with the same imprint.
- 6) Single colour printing only.
- 7) Barrel printing only. Clip printing is not available on this service level.
- 8) We reserve the right to offer an alternative product of a similar price if there is a stock shortage.
- 9) A paper proof will be provided either by fax or e-mail and this must be signed off by you and returned to us by email or fax within 1 hour.
- 10) Your order will be despatched by us on your behalf using a third-party overnight service. We cannot be held responsible for late deliveries due to third party carriers once the goods have left our premises.
- 11)Overnight delivery service is possible only in the UK mainland and does not include the highlands or islands of the UK.

enables you to enjoy our 3-day express printing service. To qualify for this service, strict adherence to the following conditions is necessary and without exception.

- PremierShip3 is defined as the time between receiving your correct order and artwork to the time we despatch your order to your chosen destination.
- 2) We must receive your completed purchase order in writing together with the correct artwork before 12pm on the working day prior to your required despatch date.
- 3) Your purchase order must contain all relevant information to enable us to produce your order correctly and despatch it to your chosen address.
- 4) Artwork must be created in Adobe Illustrator and saved as an EPS file with all fonts converted to outlines.
- 5) Maximum order size is 5,000 pieces with the same imprint.
- 6) Barrel printing only. Clip printing is not available on this service level.
- 7) We reserve the right to offer an alternative product of a similar price if there is a stock shortage.
- 8) A paper proof will be provided either by fax or e-mail and this must be signed off by you and returned to us by email or fax within 1 hour.
- 9) Your order will be despatched by us on your behalf using a third-party overnight service. We cannot be held responsible for late deliveries due to third party carriers once the goods have left our premises.
- 10) Overnight delivery service is possible only in the UK mainland and does not include the highlands or islands of the UK.

Multi-colour printing is only available on white pencils. Pencils printed with more than one colour are supplied unsharpened. A sharpening service is available at extra cost.

It is imperative that the world's forests meet the social, ecological and economic rights and needs of the present generation without compromising those of future generations. This can only be done by responsible forest management and finding solutions to the problems created by bad forestry practices.

The Forestry Stewardship Council (FSC) is an independent, non-governmental, non profitmaking organisation which was set up for this very reason. It has offices in more than 46 countries and provides standard setting, trademark assurance and accreditation services for companies and organisations who are interested in responsible forestry.

FSC® certification is growing worldwide, strongly driven by a demand for FSC® certified timber and non-timber products. The Forestry Stewardship Council award covers "Chain of Custody" which means that the products can be traced back to the original forest of origin and are guaranteed to be from sustainable sources, complying with ethically produced best practice.

#### Introducing Pen+ Promo Sets

Pen+ Promo Sets are an exciting concept, pairing some of our best-selling pens with high-quality accessories in appealing but low-cost blister packaging. They are a great way to add value and branding impact to a promotional gift.

Not only can the products be printed or engraved as normal, the cardboard backing can be printed in stunning full colour to both sides. This means an incredible scope for customisation and promoting a brand.

There are 18 exciting Pen+ Promo Sets to choose from, as well as our innovative Pen+ Greetings Cards. Explore the full range over the next few pages.

Notebook: Pen: Average Lead Time: Vintage Notebook Grafton Ballpen 5 Working Days

Classical gift set featuring the leather-effect Vintage Notebook and matching Grafton Ballpen, presented in a PB400 gift box. The pen is laser engraved while the notebook can be spot colour printed, full colour printed or debossed. See page 44 for pen details.

### Pen+ Notebook Set 3

Notebook: Pen: Average Lead Time: Denim Black Notebook Electra Noir Ballpen 5 Working Days

Modern hard cover notebook with an appealing strip of colour, paired with the popular Electra Noir Ballpen and presented in a PB400 gift box. Choose from three contemporary colours. The notebook can be full colour printed, debossed and even a combination of debossing and doming. See page 79 for pen details.

### Pen+ Notebook Set 4

Notebook: Vintage Notebook Pens: Electra Ballpen

Electra Mechanical Pencil

Average Lead Time: 5 Working Days

The black Vintage Notebook is presented in a PB400 gift box and can be spot colour printed, full colour printed or debossed. Includes Electra Ballpen and Electra Mechanical Pencil. See pages 72 and 73 for pen details.

Pen+ Notebook Set 5

Notebook: Vintage Notebook
Pens: Electra Ballpen
Electra Rollerball

Average Lead Time: 5 Working Days

The black Vintage Notebook is presented in a PB400 gift box and can be spot colour printed, full colour printed or debossed. Includes Electra Ballpen and Electra Rollerball. See pages 72 and 73 for pen details.

### Pen+ Notebook Set 6

Notebook: Vintage Notebook
Pens: Electra Fountain Pen

Electra Mechanical Pencil

Electra Rollerball

Average Lead Time: 5 Working Days

The black Vintage Notebook is presented in a PB400 gift box and can be spot colour printed, full colour printed or debossed. Includes Electra Fountain Pen, Electra Mechanical Pencil and Electra Rollerball. See pages 72 and 73 for pen details.

Boxed Gift Set 6

Our fantastic boxed gift sets pair best-selling writing instruments with high-quality accessories, presented in a smart black box with foam insert for an appealing promotional gift.

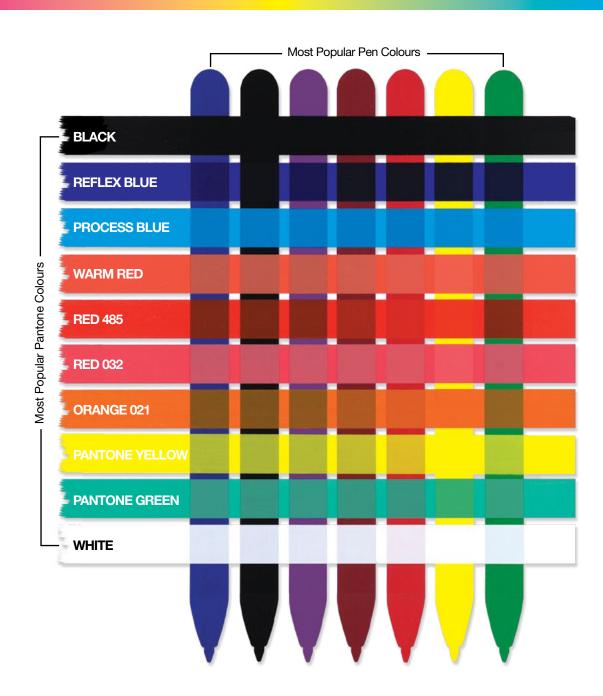

# **COLOUR MATCHING ON NON-WHITE MATERIALS**

The most accurate colour matches can be achieved when Pantone references are provided and the surface being printed is white. In the absence of Pantone references, a colour swatch or previously printed sample is acceptable but colour matches are less accurate in this case. It is not possible to produce accurate colour matches on any surface that is not white. Surface colour always influences the printed colour (see adjacent image) and it is advisable to order a printed proof if the colour match is critical. If a printed proof is not ordered, we will assume that our best attempt to match the colour reference requested is acceptable to you, given the constraints or limitations of the ink system in use and the nature and colour of the surface being printed. As a general rule, orders for bright colours to be printed onto dark surfaces will be the least accurate, eg. white printed onto black will appear light grey when compared with true white and all basic Pantone colours and all central Pantone colours will appear very dull when printed onto black or coloured surfaces.

The adjacent image shows how a number of perfectly matched pantone colours appear when printed on coloured pens. This image is a simulation of the effect but it is derived from a precision colour scan of real screenprints on real pens. Every attempt has been made to preserve the authenticity of colour balance through each of the stages of reproduction to ensure that the finished scan reflects the true nature of how pantone colours appear on different coloured substrates. The final stage, the printing of this page, was produced using conventional litho CMYK separations and this system, whilst not ideal, is the only feasible method for reproducing such a wide variety of colour effects. Therefore the colours achieved should not be taken as precisely correct but they are very close to the original screen printed swatch and, as such, can be safely used as a guide.

Clearly, having to print Pantone colours on anything other than white is less than ideal. In reality, we usually modify colour matches to increase their opacity when overprinting non-white materials but this will always result in straying from the original Pantone reference. The resultant image may appear better than if an unmodified ink was used but it will never be an accurate Pantone match. In all cases, the colour will lose its clarity (brightness) by making it more opaque.

Metallic inks (gold and silver) have a reduced life due to their formulation. No guarantee for adhesion, chemical resistance (including perspiration) or abrasion resistance can be given on these colours. Some products can be over-varnished (at additional cost) to protect metallic colours and this should be requested in writing at the time of placing the order.

## MANUFACTURING AND BRANDING

The Pens Galore catalogue brings together a unique and comprehensive range of writing instruments specially selected to reflect the needs and trends of today's promotional market. Our selection criteria is based upon quality and style with a very keen eye on value for money. Whether you require a very low-cost promotional pen for mass-mailing or a fine writing instrument for that special presentation or award, the Pens Galore catalogue simplifies the selection process.

Pen manufacturing and personalisation is a complex process involving many manufacturing and printing techniques.

### **Injection Moulding**

Fully robotic moulding machines avoid the quality defects normally associated with manual handling whilst at the same time providing the greatest manufacturing efficiency and associated lower costs.

### **Digital Printing**

This can be in the form of direct digital printing straight onto a pen surface, or by means of a transfer wrap, which allows photographic-quality prints around the entire circumference of the barrel.

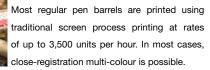

### **Writing Test**

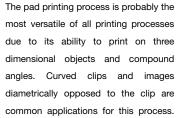

Refills are automatically checked using accelerated testing techniques. Samples are taken from every batch manufactured and tested to exhaustion and results logged to ensure that the standard of riting quality and longevity is maintained.

### **Screen Process Printing**

### **Pad Printing**

The process is ideally suited to close registration multi-colour printing.

# Pen Assembly

There can be as many as fifteen components in an inexpensive retractable plastic pen and to avoid high assembly costs, fully-automatic assembly lines

are used for most models.

The assembly process can be very flexible allowing small quantities of special colour assemblies for a bespoke corporate look.

### **Laser Engraving**

This is the preferred technique for personalising metal pens as the image becomes a permanent feature of the product and cannot be

removed easily. It is equally suitable for producing multiple images or individual images or names.

### **TERMS AND CONDITIONS**

The following is a brief version of our terms and conditions. Our full terms and conditions can be provided upon request. 'The Supplier' henceforth shall mean the company with whom you have placed your order.

- PremierShip1, PremierShip2 and PremierShip3 are express services for the ranges shown at the time of publication. The services are provided on the following basis.
  - (a) Minimum of 1 (PremierShip1), 2 (PremierShip2) and 3 (PremierShip3) working days to despatch from receipt of your signed and approved order acknowledgement.
  - b) Maximum of 5,000 pieces with same design.
  - (c) Single colour printing on the barrel only.
  - (d) We reserve the right to offer an alternative product of a similar price if there is a stock shortage.
- Overnight delivery service is possible only in the UK mainland and does not include the highlands and islands of the UK. We are not responsible for delays in transit.
- Product colours may vary from batch to batch. Recycled products may vary in colour due to the natural raw material used.
- 4. Average Lead Time means the average amount of time to produce 1,000 pieces in a single colour print from receipt of your signed and approved order acknowledgement. We reserve the right to offer an alternative product of a similar price if there is a stock shortage.
- Metallic inks (Gold and Silver) have a reduced life due to their formulation. No guarantee for adhesion or longevity can be given on these colours. You can ask for an over-varnish to improve their wear resistance.
- 6. All goods received by you or your client must be inspected within 3 working days of delivery and any shortages or quality issues reported to the supplier (the company you placed the order with) in writing. On no account can the goods be distributed by you until you are satisfied that they are of merchantable quality. No discounts or compensation will be given once products have been distributed.
- In the event that we agree that defective goods were supplied, we will replace the goods at our cost. We will not accept any claims for consequential loss.
- 8. The logos and images shown in this catalogue are for display purposes only and are not intended to suggest or imply that work was undertaken for any company, or that they endorse the product(s) upon which their name or logo is shown. The images are to illustrate the type of effect possible using the printing techniques outlined.

### **INFORMATION**

## **NOTES**

### **SECTION INDEX**

### ARTWORK

To be supplied in digital format if possible. Preferably created in Adobe Illustrator (\*.ai). All fonts must be converted to outlines. Any work involving cleaning up images, typesetting or re-drawing will incur additional charges. Artwork can be supplied by email or on disk.

#### LINE THICKNESS

The minimum printable line thickness is 0.17mm (0.5pt) as a positive image and 0.35mm (1pt) as a negative image (reversed out detail).

### PRODUCT COLOUR

Product colours may vary from batch to batch. CMYK reproduction of product images can not be taken as a completely accurate representation. Requesting a physical sample would be strongly advised if there is any doubt. Recycled products may vary in colour due to the natural raw material used.

### COLOUR MATCHING

Pantone colour matches and sample colour matching can be mixed to commercially acceptable standards on white products only. It is not possible to achieve accurate colour matches on non-white products because printing inks are not totally opaque. Consequently, the substrate colour influences the printed colour. This becomes more noticeable for darker coloured substrates. See page 232 for more information.

### METALLIC COLOURS

Gold and silver inks contain metallic particles which are susceptible to rapid degradation with regular handling. Ink manufacturers will not guarantee metallic ink longevity and we would recommend that an over-varnish is requested to preserve the life of the printed image.

### **PROOFING**

Paper proofs are provided free of charge but printed proofs will incur the current proofing charges.

#### **DELIVERY**

Our normal service varies between 2-4 weeks from your acceptance of the order confirmation. Express service is available on a limited range of pens at additional cost. We despatch goods by overnight carrier to any UK mainland address. Deliveries outside UK mainland will take longer depending upon the destination. Carriage costs are normally charged extra.

### ORIGINATION CHARGES

Screens, plates or blocks are required for each colour or position being printed and these are normally additional to any unit prices quoted unless stated otherwise.

### INSPECTION

We would ask you to inspect any goods supplied before you distribute them to your clients. Defective goods will be replaced at our cost but no refund can be given if defective goods are not returned. In any event, liability applies to replacement cost and we do not under any circumstances entertain claims for consequential loss.
